FUN ENGLISH

Age: 6 – 10 years old

Fun English helps students to develop their English Language skills whilst enjoying learning the language in greater depth. We will be covering topics such as the world, seasons and different cultures. Students will learn to improve their writing and speaking skills through practice and games which will also aid their school work. We will have a strong focus on helping pupils improve their classwork, having reading and writing activities each week to help improve their English in every subject.
